

2010 ASC Board Elections – Large Scale

Al Zeller

- Affiliation** National Superconducting Cyclotron Lab at Michigan State University
- Position** Senior Physicist and Head, Research Facilities Department
- Previous Positions** Research Associate (Florida State University), Research Fellow (Australian National University), Research Associate, Visiting Assistant professor (Texas A&M)
- Education** Florida State University PhD (1974)
- Research Interests/
Areas of Expertise:** Superconducting magnets, radiation damage, radiation resistant magnets, novel uses of superconductors, cryogenics, detector magnets
- Publications** 94 in refereed, 200+ in conference proceedings and reports
- Approximate Number of Years in Applied Superconductivity:** 30 years (first ASC 1982)
- Membership in Professional Societies** American Physical Society, Senior Member IEEE (Magnetics Society representative on Council on Superconductivity), Cryogenic Society of America (Board of Directors and Treasurer)
- Awards** Nuclear and Radiological Science Fellowship, CEC 50th Anniversary Recognition Award
- Previous ASC Service** Large Scale Program Committee (1992), ASC Board (1992-1998, 2000-present), Chair ASC (2006), Large Scale sub-chair (NA)(2010), Technical editor (2004, 2008, 2010)
- Service to Related Conferences** Cryogenic Engineering Conference Board of Directors (1995-2003, 2007-present), President CEC (1999-2003), Conference Chair CEC (1999, 2011), Technical editor Advances in Cryogenic Engineering (1999-present), Technical editor Magnet Technology Conference (2006-present), National Advisory committee Magnet Technology-16, International Advisory Board CIMTEC (2006-present)
- Statement** Having served the ASC in many capacities, including conference chair in 2006, I wish to continue to serve the conference. My experience and positions with other conference organizations allows coordination minimizes conflict between them and ASC.
