CONSTRUCTION, INSTALLATION AND USE OF EXHIBITS

ARRANGEMENT OF EXHIBITS The space provided will be shown on the floor plan insofar as possible, but Management reserves the right to make changes at any time in location, size and display limits of any booth if this is in the best interest of the show or in excess of the Exhibit Site load limits (contact Management for additional information).

Exhibit floor weight-bearing capacity is 150 lbs per square foot. Exhibitors may not place objects weighing more than 150 lbs. per square foot in their booth – this is an absolute limit and no exceptions will be made. Violations will not be permitted. Any damage caused by excess weight or by the setting up, installation, use, exhibition or removal of any object exceeding this weight will be repaired at the exhibitor's expense.

Exhibitors agree to arrange their exhibits so as not to obstruct the general view of nor hide other exhibits. A maximum back wall height on linear booths is restricted to 8 feet, with a 4 foot height restriction imposed on all materials in the remaining space forward to the aisle. No partitions other than the side rails provided by Management are allowed unless specifically approved in advance. The entire cubic content of an island booth may be used up to the maximum height of 16 feet, including signage. Exhibitors may not project beyond the space allotted and aisles must be kept clear of traffic.

Individual exhibitors who wish to install and dismantle their own booths can do so if they use company personnel and do not attempt to bring in "pick-up" labor, if they comply with local and state fire, safety and insurance regulations, and if they comply with the rules set by Management.

The decorator and the Hyatt Regency Chicago are responsible for maintaining in and out traffic schedules at the exhibit site. Even local exhibitors should clear all movements of exhibit materials through the decorator as they will have priority at the unloading area at all times. Exhibitors may also handle their own freight provided the material can be hand carried to and from the booth via accepted freight entrances, or if transport of large items can be done using two-wheeled hand trucks or four-wheeled mover-type dollies provided by the exhibitor.

Electrical installation is exclusively managed by the decorator and must conform to regulations and to all national, state and local codes. Information and order forms will be included in the exhibit service kit provided by the decorator.

USE AND PURPOSE OF EXHIBIT SPACE No Exhibitor may sublet, assign or apportion any part of the assigned space, or represent, advertise or distribute literature for the product or service of any other firm or individual except as approved in writing by Management.

All exhibits must be adequately staffed during exhibition hours. In addition, exhibitor agrees not to dismantle his booth or to do any packing before the closing hours of the exhibit.

RESTRICTIONS The exhibit is scientific and educational; over-the-counter sales during the show are prohibited.

Management may prohibit distribution of souvenirs, advertising matter or anything else it considers objectionable. Distribution elsewhere than from within an exhibitor's booth is forbidden.

No materials may be posted, nailed or otherwise affixed to walls, doors or other surfaces in a way that might deface the premises or booth equipment and furniture. Any damage is payable by the Exhibitor.

Management reserves the right to restrict, reject, prohibit or eject any exhibit, in whole or in part, which because of noise, safety hazards or for other prudent reasons becomes objectionable, if an exhibit or exhibitor is ejected for violation of these rules and regulations, no return of rental shall be made.

Exhibitor agrees not to sponsor group functions that conflict with any official Conference program, except as approved by Management. Please check the website (www.ascinc.org) for information regarding ancillary meetings, hospitality suites, receptions, etc.

DECORATION OF EXHIBITS An exhibit service kit will be provided prior to the conference and exhibition which will include information on labor, drayage, furniture, lighting, telephones and electricity. It is the responsibility of the Exhibitor to abide by the regulations and deadlines contained therein. All shipments to the Exhibit Site should be marked with the Exhibitor's name, booth number, company name, address, phone number and Show name. A complete shipping address will be provided within the exhibit service kit.

SPECIAL REQUESTS Helium, Nitrogen, Oxygen and Nitrous oxide tanks are allowed on the event floor with prior approval by the Fire Marshal. Tanks must be properly labeled for contents and firmly secured in the upright position, with valves protected against damage. Nitrous oxide and Oxygen tanks over 250 cubic feet are prohibited. Oxidizing gases (Oxygen or Nitrous oxide) in amounts in excess of 503 cubic feet may only be used in public assembly areas under permit for Hazardous Materials.

All special requests should be directed to Freeman Decorating's Exhibitor Service Department at 001-773-473-7080 or via email at FreemanChicagoES@freeman.com PRIOR to submitting the Exhibit Application & Contract Agreement and full payment. Management will not be liable for the fulfillment of this contract as to the delivery of space if non-delivery is due to the following causes: by reason of the building being destroyed by fire, act of God, public enemy, strikes, the authority of law, or for any other cause beyond its control. In the event of its not being able to hold the exhibit for any of the above named reasons, Management will refund to each exhibitor the amount he paid for the space, less a proportionate share of all the expenses incurred by Management for the exhibit.
